Bite the Bullet

MaYaN

I am inflexible
There is no way
To break my discipline and strength
My endless loyalty
For my fatherland
Fills me with dignity
That no one understands

When do we get some explanations?
About what happened there at last
This deprivation
By the pride of our nation
This is the reason to conceal

Serving the Nation
I'd give my life for
With no regrets

Rule out the predators at every cost
I feel no pity for all the renegades who died

The pride of the soul
Forever guilty
The legion of the fall
Into disgrace

Families have been torn apart and mourn
The silence of defeat
A thorn in the flesh
One deep scratch
But the lies live on

When do we get some explanations?
About what happened there at last
This deprivation
By the pride of our nation
This is the reason to
Turn around the point of view

We are forsaken

By each and every one of you
Don't forget what you've failed to do

Watch out
We are forsaken
Beware
By every one of you
Hold on
Don't forget that you have failed in every way

The pride of the soul
Forever guilty
The legion of the fall
Into disgrace

Families have been torn apart and mourn
The silence of defeat
A thorn in the flesh
One deep scratch
But the lies live on

When do we get some explanations?
About what happened there at last

Deprivation
No confrontation
This is the reason to march on
Stand ground
Beat down
And conceal
