

Lead The Way (Elliot's Full & Clean Acapella)

Mariah Carey

Who would've believed
That you and me would fall
And land together
And who could've foreseen In you I'd find the place
I've belonged forever
And if I move closer
Then love will take over And lead the way
I'd given up hope
Losing the faith that love
Could be mine to treasure And now
Nothing's the same
I found myself reborn
On the day I met you And if we move closer
Then love will take over
And lead the way
Suddenly you are lying Here with me and the truths
I used to hold have changed
And if I move closer
And let it take over Then love will lead the way
And let it take over
Then love will lead the way
