Emergency

999

We've heard it all before
We've learning to ignore
You must confess this awful mess
Isn't just a bore
It's more than we could bear
But you don't really care
Kiss of live to save our life
All you do is stare
Sell yourself for cheap
Make our mother weep
Loosing pride is hard to hide
And harder still to keep

I'm back in full attack
Never give in until they crack
Emergency

Raiders strike but where
Panic in the air
Running scared oh I'm so scared
It gets you everywhere
Heard it on the news
Rebels get accused
Fighting for another cause
But why and where and whose
Carry out their plan
Release us if you can
what's your worth to a pile of earth
you're just another man

Black jack want to quack
Never get your money back
Pack attack in the back
By a bloody maniac
Better see industry
Take it fast and make it last
Go away make them pay
Never make the same mistakes
Sometimes care sometimes not

See 'em bleed and see them rot
