Cup Of Coffee

Skip The Use

And this time round, it's all thanks to you, baby oh ohNothing, is strong enough to lead us astray
And it's always a mystery to me
I know you are the one for me, eh, ehYou see, my world's turning around you
And I'm, definitely in love with you
It's hard, it's hard to be far, oh, ohAnywhere in the world, I'm with you my girl
And I'm proud oh yeah so fucking proud you know
And I want to scream it out loud you knowIt's cool! yeah you know that it's so cool
And no, you've got nothing to prove, I know
I know that I feel goodA cup of coffee, by your side in the morning
A sip of sweet love, from your lips in the evening
Every now and then, life makes me happy, oh ohThe last time we kissed, honey, sure I miss it
You said kind words, I never forget
You had this fucking look on your faceAnd this time round, it's all thanks to you baby oh oh
And this time round, it's all thanks to you baby oh oh
And this time round, it's all thanks to you baby oh oh
And this time round, it's all thanks to you baby oh oh
