

# Out of My Mind (Radio Edit)

Lasgo

I've been waiting for tonight  
You give me fever deep inside  
It's you and me together  
I feel it in my soul  
We can last forever  
You just make me lose control I can't get you out of my mind  
It's silly but I think about you all the time  
All you have to do is give me a sign  
To make me fall in love, love, love I can't get you out of my mind  
It's silly but I think about you all the time  
All you have to do is give me a sign  
To make me fall in love, love, love When you're dancing close to me  
It's for everyone to see  
It's you and me together  
I feel it in my soul  
We can last forever  
You just make me lose control You and me  
You and me  
You and me  
It's you and me together  
I feel it in my soul  
We can last forever  
You just make me lose control I can't get you out of my mind  
It's silly but I think about you all the time  
All you have to do is give me a sign  
To make me fall in love, love, love I can't get you out of my mind  
It's silly but I think about you all the time  
All you have to do is give me a sign  
To make me fall in love, love, love
