

Indefinite Leave to Remain

Pet Shop Boys

I was lost for so long
Feels like it's taken
Half my life to find
Where I belong Seeing you here, you're my nation
This is my application
Give me hope, keep me sane
Give me indefinite leave to remain All the worlds
That I saw
I went so far away
And still wanted you more It may sound superficial
But can we make it official?
Give me hope, keep me sane
Give me indefinite leave to remain Tell me where I stand
What do you envision?
One way or another
Give me your decision now Is it time to proceed?
Will you give me a chance
And the status I need? Seeing you here, you're my nation
This is my application
Give me hope, keep me sane
Give me indefinite leave to remain Give me indefinite leave to remain
