Leanne

SNUZZ

When I see you up there swinging from that rope so high
Connected to a limb above your head
When the limb begins to break
I think you'll see we're going one way yeah
We're going one way
If our path crossed over dark or endless nights
Take the time to look into my eyes
If you just look down I think you'd realize
I'm the one you want And I want ya

Chorus:
Leanne.. And I want ya
Yeah I need you oh so bad..
If I keep my head up refuse to let down
I can't erase the thought of my lover Leanne..

Mr Jones what do you think I should do
He said son don't you be no fool
With that I left him to his boring self
Take no chances and you'll find nothing
I sat and wondered just what I am doing here
coz' I should be taking this down to my Leanne
And I have a life that's feeling so complete
She wants me yeah and I want her...
(Rpt Chorus:)

Ending:
Leanne.. Leanne.. If I keep my head up I refuse to let down
I just cant erase the thought of my lover Leanne

(instrumental.....)do do do do do do do..
do do do do do do do do do...do do do do do do do la la..
If I'm singing.... (rpt chorus:)
