

# How I Feel

Tamar Braxton

[Verse 1]

You're asking how, do I really feel  
And I'm asking now, how is this real  
Oh, love is a plan, that we can't control  
All I can hope, that I'll fit the role[Chorus]  
No one will ever know how I feel for you

Throw me a love plan

When you don't say the words

I'm just sitting silent knowing that actions speaks more than words

Wanna have that something, knowing it means nothing

Baby, you're just bluffing

This is how I feel

[Verse 2]

Your pretty laughs, I'm longing to hear

I'll wait around, 'til this is real

Oh you played a mime, but I can't feel

Oh that when we're alone, our hums are sealed[Chorus]

No one will ever know how I feel for you

Throw me a love plan

When you don't say the words

I'm just sitting silent knowing that actions speaks more than words

Wanna have that something, knowing it means nothing

Baby, you're just bluffing

This is how I feel[Bridge]

Give me hope and a prayer

Say you'll be there

I must feel

I know you need

Say you love me

[Outro]

When you don't say the words

I'm just sitting silent knowing that actions speaks more than words

Wanna have that something, knowing it means nothing

Baby, you're just bluffing

This is how I feel babe
