

Generation X-Wing

Matthew Good

Venus was a fly trap
The man you loved devoured
I used to dream about your sister
Standing in the shower
But I was never cool
You thought I was a cowboy
I wonder where my gun is
Can you spare a bullet senorita? I will always be the worst
Generation X-wing
That's got to be the death star
I used to dream about the future
I used to dream about a lot of things
But I was never cool
So you can call me loser
Yeah you can call me anything
You want to senorita I will always be the worst
Help me up with
A pair of wings
A little rope
All those things
She always said I'd find the cure for cancer
I read my horoscope but I just can't pull it off alone Venus was a fly trap
The man you loved devoured
I used to dream about your sister
Fucking me in the shower
But I was never cool
So you can call me loser
Yeah you can call me anything
You want to senorita
