

After Dark

Andy Gibb

There not anything I would not do to ease your troubled mind
Where you are , there is a different feeling
I wake up , I'm on the ceilin' , opens up your eyes
What a shape ! Someone you can't forget for any time
Oh , let me show you mine , immediately After dark where the lights start fading sweet and low
I wanna be there , I wanna be there
We leave immediately
After dark where the lights start fading sweet and low
I wanna be there , I wanna be there
We leave immediately
After dark There is no limit that I would not go
if I could lie beside
Where you are , there is a different out there
Love in the jungle can be hard to realize
What a shape ! Someone you can't forget for any time
Oh , let me show you mine immediately After dark where the lights are fading sweet and low
I wanna be there , I wanna be there
We leave immediately
After dark where the lights are fading sweet and low
I wanna be there , I wanna be there
We leave immediately
After dark There is not anything I would not do to ease your troubled mind
Where you are , there is a different feeling
I wake up , I'm on the ceilin' , opens up your eyes
What a shape ! Someone you can't forget for any time
Oh , let me show you mine immediately After dark where the lights start fading sweet and low
I wanna be there , I wanna be there
We leave immediately
After dark where the lights start fading sweet and low
I wanna be there , I wanna be there
We leave immediately
After dark After dark where the lights start fading sweet and low
I wanna be there , I wanna be there
We leave immediately
After dark where the lights start fading sweet and low
I wanna be there , I wanna be there
We leave immediately
After dark
