

Billy the Punk

Amplified

Verse 1:

Billy the punk he always seemed to get it, Played his guitar, no matter if they mocked him.
Blood, sweat and tears, Billy shed them all.
He never gave up, wouldn't let you break him, Never backed down, he was gonna make it
Billy the punk was gonna show them all.

Pre-Chorus 1:

Oh, when he played his guitar, People would stop and applaud

Strumming his strings at the bars every night, billy the punk, would go far

Verse 2:

We started a band, and we became like brothers, He wrote some songs, unlike any other

I shared his dream of shooting for the stars

Billy was signed, to a major label, They filled him with lies, and he believed their fables

Billy the punk was burning at both ends

Pre-Chorus 2:

Oh how the years went by fast, Each show were better than the last

Billy would always go out with a bang, Billy the punk was alive

Chorus 1:

Live on, live on, live on

You know that Billy the punk will live on

Verse 3:

Billy the punk seemed to make it happen, Sold out his shows and got his fifteen minutes

He really tried his best to make it last.

But all of the drugs made him lose his edge, all of his fame started to get faded

He found himself standing on a ledge

Pre-Chorus 3:

Billy the punk is now gone, He's spirit and songs will live on

Years can not fade all the glitter and glamour, Billy the punk!
