

# **Songbird**

## **Eva Cassidy**

For you there'll be no crying  
For you the sun will be shining  
'Cause I feel that when I'm with you  
It's alright, I know it's rightAnd the songbirds keep singing  
    Like they know the score  
    And I love you, I love you  
I love you like never beforeTo you, I would give the world  
    To you, I'd never be cold  
    'Cause I feel that when I'm with you  
It's alright, I know it's rightAnd the songbirds keep singing  
    Like they know the score  
    And I love you, I love you  
    I love you like never before  
    Like never before, like never before
