

Starlight (feat. Dean)

TAEYEON

Love is amazing ah You are my starlight, shine on my heart
When I'm with you, it feels like I'm dreaming all day
You are my starlight, I get so happy
Your love is like a gift I was used to being alone, my days were gray
But I remember the day you lightly came to me, knocking on my door
You shined on me like a light
Woke me up from darkness
Opened the closed door of my heart Reflected in my eyes is your squinted eyes
You're smiling behind that awkward face
You're so lovable, I couldn't hold back
I discovered you like a miracle, you always make me smile
You are my starlight You are my starlight, shine on my heart
When I'm with you, it feels like I'm dreaming all day
You are my starlight, I get so happy
Your love is like a gift Meaningless, everyday things
Are now like new as if I've seen the world for the first time
I'm surprised every day
You've changed me
You drew a new me onto my empty face You are my starlight
(You You You You You You)
Shine on my heart
When I'm with you, it feels like I'm dreaming all day
(Feels like I'm dreaming, you're my yeah)
You are my starlight, I get so happy
(Oh, No No No No)
Your love is like a gift Even on rainy days, you clear up my heart
The moment I saw you, I'm only filled with you
Just looking at you makes joy spread on my lips
You're the only one who can make me smile like this You are my starlight, I can't hide it
When we're together, it feels like my heart is dancing
You are my starlight, I'm so thankful
Your love is like a dream You are my starlight
My emotion, you feel me?
Look at me, shining like a star
I realize every day
You are my starlight Yeah Oh (Oh Yeah)
Yeah (My baby baby)
