

Now That I'm With You

Jon B

Oh, baby
Listen to me, baby
Oh yeah It's been seven years since I've known you, girl
Lovin' you's been my whole wide world
That still hasn't changed for me
There's sunshine when you come around
You're gone away, it just brings me down
What do I do, baby? Girl, you take me high
Girl, you are my sunshine Now I'm with you, need only say it once
And girl, I'll be right there for you
Because I wanna make you happy
Now I'm with you, we've been through everything
Now anything I'll give to you
Because I wanna make you happy, girl There's no me if there's no you
We can live, baby too
That's what's in my dreams for me, hey yeah
You think I'm playing when I say let's not delay
When it comes to having children
Oh, I want my seeds with you, baby
All I wanna be with you, baby High in the sky
Girl, let's make it forever, baby Now I'm with you, need only say it once
And girl, I'll be right there for you
Because I wanna make you happy
Now I'm with you, we've been through everything
Now anything I'll give to you
Because I wanna make you happy, girl Now I'm with you, need only say it once
And girl, I'll be right there for you
Because I wanna make you happy
Now I'm with you, we've been through everything
Now anything I'll give to you
I wanna make you happy, girl Girl, you take me high
Gonna give you my life
You and me, it's so right
Girl, you are my sunshine Now I'm with you, need only say it once
And girl, I'll be right there for you
Because I wanna make you happy
Now I'm with you, we've been through everything
Now anything I'll give to you
Because I wanna make you happy, girl Now I'm with you, need only say it once

And girl, I'll be right there for you
Because I wanna make you happy
Now I'm with you, we've been through everything
Now anything I'll give to you
Because I wanna make you happy, girl
