

Wide Right Turns

Dispatch

Everybody put your lights on
everybody stand up 'cas the fight's on
(repeat 3 times) save your words and
ya save your speeches
you'll be better in the main street for light pieces
and when they come the suckers got no shoes
you will bear your tongue for the language that you use
save your words and
ya save your speeches
you'll be better in the main street for light pieces
and when they come the suckers got no shoes
you will bear your tongue for the language that you use and i got one question
can you tell me that
can i tip the gun
can endure like that wide right turn
you cant see my benz and i cant see you
wide right turn
you cant see my benz and i cant see you
wide right turn
you cant see my benz and i cant see you
