

# My Last Mistake

## Stuck In Your Radio

It took some time to see the truth  
With puppy eyes, I'm such a fool  
    You played your cards right  
In a game made for twoIt's not safe, she blurs my vision  
Leaving her's the right decisionJust pack my bags and head on home  
    'Cause next to you I don't belong  
I think its time to say I'm done!Between us two, there is no us  
    I wont refuse to say so long  
    My only wish is for us to simply  
Move on!It's not safe, she blurs my vision  
    Leaving her's the right decision  
    It's not safe (It's not safe), she blurs my vision  
Leaving her's the right decisionJust pack my bags and head on home  
    'Cause next to you I don't belong  
    I think its time to say I'm done!  
    Packing up my bags  
    Booking up my flight  
        ONE WAY!  
    Never looking back  
    It's okay to say  
        TOO LATE!  
It's my last night here!Just pack my bags and head on home  
    'Cause next to you I don't don't belong  
    I think its time to say I'm done!  
    Packing up my bags!  
    Booking up my flight!  
        ONE WAY!  
    Never looking back!  
    It's okay to say!  
        TOO LATE!  
It's my last night here!  
It's my last night here.
