

Heads Up

Icona Pop

I just wanna run forever
nothings gonna slow me
I don't wanna keep you waitin'
just a heads up so you know I've been drawing circles
in every city square
and if you ever get to catch me
I won't stay for long [Chorus]
so don't you wait on me
hey, save your love for later
this is overrated
don't pretend it's right
hey, save your love for later
this is overrated
just a heads up we couldn't get no higher
your fingertip touched my sky
but I can see your star coming
just a heads up so you know I'm running out of time
I'm running out of heart
I just don't wanna keep you waiting
so, time to say good-bye [Chorus]
so, don't you wait on me
hey, save your love for later
this is overrated
don't pretend it's right
hey, save your love for later
this is overrated
just a heads up there's no need
to stick around
go change your plans
so won't you give me up and let go
I won't be, be around
just a heads up so you know [Chorus]
don't you wait on me
hey, save your love for later
this is overrated
don't pretend it's right
hey, save your love for later
this is overrated
just a heads up
