

# In the Dream

## Savatage

can you hear me call your name  
I'm not far away  
I think of you  
Somehow you drifted far away from me  
I can't explain In the dream  
You're all I see  
In the dream  
Is where I'll be With no one by my side  
The tears in my eyes  
I dream of you  
Could you ever feel the same  
I think you can In the dream  
You're all I see  
In the dream  
Is where I'll be  
In the dream  
You're all I see  
In the dream  
Is where I'll be
