That's Where It's At, Sam

Imaginary Cities

We have seen this sight
Still in the darkest night
Now it surrounds us
Coming to an end
Easy when you pretend
It hasn't found us
It hasn't found usWith the old parade
Let them all lead the way
We need to see them
Knowing time would pass
We're hoping that it lasts
That's where it's at, Sam
That's where it's at, Sam
That's where it's at, Sam
That's where it's atPut all our energy
Into our love
Hoping we'd make it through
TogetherWith the old parade
Let them all lead the way
We need to see them
Knowing time would pass
We're hoping that it lasts
That's where it's at, Sam
That's where it's at, Sam
That's where it's at, Sam
That's where it's at, Sam
That's where it's at, Sam
