

# Cut Off The Top

## Beatsteaks

Check the meaning don't stop the teasing now  
Watch the ceiling crushing down to the floor  
If you want it get it coming after dark  
Guess we make it faster than you ever thought

Climb this mountain to cut off the top  
Damage, damage  
First I swallow then I throw up  
Damage, damage  
Come and try me falling apart  
Damage, damage  
Climb this mountain to cut off the top  
Damage, damage

Stripped to the bone  
Ready to go  
You can never tell, getting hell, from being well, so let me spell  
It's me against the world  
It's me against the world

Climb this mountain to cut off the top  
Damage, damage  
First I swallow then I throw up  
Damage, damage  
Come and try me falling apart  
Damage, damage  
Climb this mountain to cut off the top  
Damage, damage

I see at least you live by the rule  
(Stop the fuss now pray for love)  
Now that you're stuck to the groove  
(Raise your head now say goodbye)  
At least you live by the rule  
(A sudden rush covers up my doubts)  
You never know how the drugs work out

Come down watch the whole thing explode  
Come down watch the whole thing explode

Climb this mountain to cut off the top  
Damage, damage  
First I swallow then I throw up  
Damage, damage  
Come and try me falling apart  
Damage, damage  
Climb this mountain to cut off the top  
Damage, damage

Kreuzberg, Kreuzberg!
