

# Black Cherry

## Goldfrapp

How can it be?  
I can taste you now  
How can I see?  
When you're everything All the world in one grain of sand  
And I've blown it  
All my world in one grain of sand  
And you own it Black cherry  
Black cherry  
Stone  
Black cherry  
Black cherry Hearing you say it  
I could die  
Trembling star  
Just reminds me All the world in one grain of sand  
And I've blown it  
All my world in one grain of sand  
And you own it Black cherry  
Black cherry  
Stone  
Black cherry  
Black cherry Excite me, ignite me  
Oh and you know  
I miss you, I kiss you  
Oh and you know Black cherry  
Black cherry  
Stone  
Black cherry  
Black cherry Excite me, ignite me  
Oh and you know  
I miss you, I kiss you  
Oh and you know
