

99 Revolutions

Green Day

There's a trouble in the air
A rumble in the streets
A going out of business sale
And a race to bankruptcy
It's not one to 99, it's 99 to one
A common cause and a call to arms
For the health of our daughters and our sons
It's 99 revolutions tonight
99 revolutions tonight
99 revolutions tonight
99 revolutions tonight
There's a rat in the company
A bail out on easy street
How the fuck did the working stiff
Become so obsolete?
Hit the lights and bang the drum
And let your flag unfold
Cause history will prove itself
In the hall of justice and lost souls

[illegible]
