# Rust

## Chris Knox

Living, fighting, obsessing
Just as long as I can share it all with you
Yesterday, today, tomorrow, come rain, come shine
Hell and back, the beginning in between till the end of timeAll that shines turns to rust
All that stands in time turns to dustAs above, so below
But you ain't no fool and honey, I'm damn sure that you know
Yesterday, today, tomorrow, come rain, come shine
Hell and back, the beginning in between till the end of timeAll that shines turns to rust
All that stands in time turns to rust
