

Excuses

Olivia Jean

I'm lost in a craze
That your honesty paved me through
Always losing my way
The further you stray from the truth
I'm wrapped around your finger
So tight you'll never have to fight alone
I'm so delusional
I don't think twice

When I reap what you have sown I'm always making up big excuses for you
Until I get what's mine you're gonna be denied
The only glue between us that holds true
I'm always making up big excuses for you There's always two sides to a story and if I've got to choose
I'm going to stay on your side
No matter what you're inclined to do I'm always making up big excuses for you
Until I get what's mine you're gonna be denied
The only glue between us that holds true
I'm always making up big excuses for you I look so damn foolish
To who's ever listening to me
They say snap out of it darling
You're blind to what everyone else sees
And although I'm so anxious to finally
Feel safe and sound
I continue to cover up
Any troublesome tracks that I found I'm always making up big excuses for you
Until I get what's mine you're gonna be denied
The only glue between us that holds true
I'm always making up big excuses for you
I'm always making up big excuses for you
I'm always making up big excuses for you
