

# Strobe Lights

## Goldie Lookin Chain

Strobe lights, storm in the summer sky  
In your eyes cannons open fire  
Go blind like world war nine  
Welcome to the show Tonight we cut like a samurai  
You and I, Bonnie and Clyde  
Strobe lights, chase the sunrise  
Ready, set, explode Dance, wake up the sleepers  
I'm staring at you now, I'm watching you  
Dance, all you pale motherfuckers  
I love how you move tonight in the strobe lights Strobe lights found us just in time  
First born, last in the family line  
You burn like a Roman candle  
A symphony's composed Tonight we cut like a samurai  
So alive, so alive, so alive, so alive Dance, wake up the sleepers  
Can't stop staring at you now, I'm watching you, ooh  
Dance, all you pale motherfuckers  
I love how you move tonight in the strobe lights Dance, dance, wake up the sleepers  
Wake up the sleepers, the strobe lights  
In the strobe lights, in the strobe lights
