

California

L.A. Guns

Come on Too much time spent in stormy weather
I didn't think it would be so cold
Our fire's burnin' now that we're together
It almost feels like I'm halfway home Is that a sign up ahead
Like a star pointin' to your bed?
Keep your tired eyes open
Sparks flyin' through your head Won'tcha take me back, back there?
Take me back to California
Take me back to California, yeah Golden songs floatin' down the river
Got the gold shinin' in your hair
I wish this road could go forever
Not too long, babe, and I'll be there, yeah Is that a sign up ahead
Like a star pointin' to your bed?
Keep your tired eyes open
Sparks flyin' through your head Won'tcha take me back, back there?
Take me back to California
Take me back to California, yeah, yeah, yeah Won'tcha take me back, back there?
Take me back to California
Take me back to California
Take me back to California
Take me back to California Won'tcha take me back, back there?
Take me back to California
Take me back to California
Take me back to California
