

# Colour Me In (Mokadem Remix)

Syron

I'm black and white  
I'm missing something  
The blinds are shut  
Forever night I'm in  
There's a Winter in my show  
My nerves don't feel a thing  
Got myself out from the world  
But can you join up the dots  
Can you join after dark  
Can you make it all stop  
Cause' I'm wondering  
Can you colour me in?  
Can you colour me in? I'm undefined  
The shadows pull me in  
They can't deny  
They magnify the sin  
There's an emptiness a hole  
A start that won't begin  
I'm trapped within the fold  
But can you join up the dots  
You can turn off the dark  
You can make it all stop  
I'm still wondering Can you colour me in?  
Can you colour me in?  
Can you colour me in?  
Can you colour me in?  
Can you colour me in?  
Can you colour me in?
