Truth Or Dare

The Pink Spiders

I got a secret, I'm telling everyone
Don't wanna keep it, I wanna play dumb
I made a promise I think I'm ready to break
It's just a question, there's nothing wrong or right
And your intentions keep you up at night
Play with fire and you are way too insane
But when the lights go out, go out
We are just beginning
And not a sound, our eyes are looking down

Spin the bottle round and round and round and round

Last kiss on the tip of your lips

Where it heads, now watch your heart beat beating Time's up, are you ready or not?

So don't stop when you get that feeling now, now

Tock, tock, it's your heart beat beating

Now, now, it's just

I feel uneasy, I feel it in the air
It's too danger, I'm playing unprepared
I try to hide it before I make a mistake
But when the truth is out, is out
We're just beginning

Without a sound, our eyes are looking down
We spin the bottle round and round and round and round and round Last kiss on the tip of your lips

Where it heads, now watch your heart beat beating Time's up, are you ready or not?

So don't stop when you get that feeling now, now Tock, tock, it's your heart beat beating

Now, now, it's just

Well, I'm ready, so ready

So take me on

(So take me on)

You're staring, I'm so trapped It's on and on and on and on Last kiss on the tip of your lips

Where it heads, now watch your heart beat beating Time's up, are you ready or not?

So don't stop when you get that feeling
Last kiss on the tip of your lips

Where it heads, now watch your heart beat beating
Time's up, are you ready or not?
Well, don't stop when you get that feeling now, now
Tock, tock, it's your heart beat beating
Now, now, it's just a game
