

# Cup of Tea

## Hanna von Bergen

All I want is a cup of tea with a sweet cookie

All I want is a movie, something groovy

Like an action movie

All I want is a real good heart, dadd dee da doo

From someone like you

All I want is a cappuccino, a choclato

On the top of

The heart I love, and the foam above

The plate below and the cappuccino

But All I need is a holding hand from a caring man

All I need is a honest love, to keep me home

All you need is to make me smile, and Iâ€™ll stick for a while

All I want is organic juice, (as dressed as its loose)

And, some Heineken booze

All I want is a loving boy, A fun little toy,

All I want is a one night stand, and a boy in a band

May be in a foreign land

But all I need is a holding hand from a caring man

All I need is a honest lover, to keep me home

All you need is to make me smile and Iâ€™ll stick for a while

â€f

All I want is a sunny day, so I can lay

On that grass today

All I want is a whistling tune, in front of the moon

With someone like you

But All I need is a holding hand from a caring man

All I need is a honest love, to keep me home

All you need is to make me smile and Iâ€™ll stick for a while
