

# Wake the World

## Loft

One by one the stars disappear  
The sky grows brighter  
Every minute of the sunrise  
Wake the world with a brand new morning  
Say hello to another fine morning  
Got my face in the running water  
Making my life so much brighter  
Moon shines bright, asleep in my bed  
Like so many people  
Got a big day ahead of me  
Wake the world with a brand new morning  
Say hello to another fine morning  
Wouldn't miss it for all of its glory  
I'll be there when you're calling me

One by one the stars appear  
The light of the day  
Is no longer here  
One by one the stars disappear  
The sky grows brighter  
Every minute of the sunrise  
Wake the world with a brand new morning  
Say hello to another fine morning  
Wouldn't miss it for all of its glory  
I'll be there when you're calling me  
One by one the stars appear  
The light of the day  
Is no longer here
