

# War of The Worlds

## Orson Welles

War of the worlds  
It's all coming down  
Laser beams and bombs  
Are the only sound  
Flying silver discs  
Coming from the sky  
They wanna kill us all  
The wanna see us die  
Man or machine  
They came from outer space  
Prgrammed to search  
And destroy the master race

(Chorus x4)  
War of the worlds  
We're all gonna die

---
