

Shooting Star

[Keshia ChantÃ©](#)

I done been down there before and I ain't going back
I've been through the fire, through the storm,
What'd you'll know about that?
What'd you really really know about that?
I've been through so much crap
And it's unbelievable how I kept my sanity intact

I done figured it out
I am no longer afraid the world's for the taking
I done figured it out
I'm a fly, so watch me fly

I'm a shooting star, shooting star
I'm unbreakable, I'm invincible
Shooting star, shooting star
You can't stop me now
You can't break me down
I'm flying higher than I've ever been
With places that I've seen
Ain't no turning back
I'm a shooting star, shooting star, shooting star

It's unbelievable this feeling that I'm feeling
Like a miracle just hit me with the healing
I bet you'd like to feel like that
Got the world in your hands like that
From top to bottom you got it going like that
I was flat on the ground but now look where I'm at

I done figure it out
I am no longer afraid the world's for the taking
I done figure it out
I'm a fly, so watch me fly

I'm a shooting star, shooting star
I'm unbreakable, I'm invincible
Shooting star, shooting star
You can't stop me now
You can't break me down
I'm flying higher than I've ever been

With places that I've seen
Ain't no turning back
I'm a shooting star, shooting star, shooting star

Flying so ha-ha-high
Look up you might see me now
Soaring above the clouds
Don't think I'll ever come down

Flying so ha-ha-high
Way over closed doors
Can't hold me down no more
I'm about to show em... I'm

Flying so ha-ha-high
Look up you gon' see me now
Soaring above the clouds
Don't think I'll ever come down

Flying so ha-ha-high
Way over closed doors
Can't hold me down no more
Cause I'm a shooting star

I am unbreakable, I'm invincible
Shooting star, shooting star
You can't stop me now
You can't break me down
I'm flying higher than I've ever been
With places that I've seen
Ain't no turning back

I'm a shooting star, shooting star
I'm unbreakable, I'm invincible
Shooting star, shooting star
You can't stop me now
You can't break me down
(Cause I'm a shooting star)
I'm flying higher than I've ever been
With places that I've seen
Ain't no turning back
I'm a shooting star, shooting star, shooting star
