

# Vital Signs

## Rush

Unstable condition, a symptom of life  
In mental and environmental change  
Atmospheric disturbance, the feverish flux  
Of human interface and interchangeThe impulse is pure  
Sometimes our circuits get shorted  
By external interference  
Signals get crossed and the balance distorted  
By internal incoherenceA tired mind become a shape shifter  
Everybody need a mood lifter  
Everybody need reverse polarity  
Everybody got mixed feelings about the function and the form  
Everybody got to deviate from the normAn ounce of perception, a pound of obscure  
Process information at half speed  
Pause, rewind, replay, warm memory chip  
Random sample, hold the one you needLeave out the fiction, the fact is this friction  
Will only be worn by persistence  
Leave out conditions, courageous convictions  
Will drag the dream into existenceA tired mind become a shape shifter  
Everybody need a soft filter  
Everybody need reverse polarity  
Everybody got mixed feelings about the function and the form  
Everybody got to elevate from the normEverybody got mixed feelings  
Everybody got mixed feelings  
Everybody got to deviate from the norm  
Everybody got to deviate from the normEverybody got to elevate from the norm  
Everybody got to elevate from the norm  
Everybody got to elevate from the norm  
Everybody got to evalate from the normEverybody got to escalate from the norm  
Everybody got to elevate  
Everybody got to elevate from the norm  
Everybody got to deviate from the norm
