Black Cloud

Blue Felix

all the hours I've been away
all the flowers you wouldn't take
I don't blame you
I can't feel
I wanna take you, but I can't stealyou're such a waste
you're such a waste
you're such a wastethis is no ordinary love
and it's not what you've been dreaming of
never ending game of cat and mouse
there's no going back
when I get you in my mouthplease baby put me down
nobody's gonna stop us now
please baby put me down
before that black cloud comes back around
back around
back around
they come back aroundall the flowers you wouldn't take
all the hours I've been awake
I don't blame you, I can't feel
Wanna take you, but I can't stealyou're such a waste
you're such a waste
you're such a wastethis is no ordinary love
and it's not what you've been dreaming of
never ending game of cat and mouse
there's no going back
when I get you in my mouthplease baby put me down
nobody's gonna stop us now
please baby put me down
before that black cloud comes back around
back around
they come back around
they come back around
they come back around
(back around)back around
(black cloud)back around
(back around)back around
(black cloud
