

Show Me Colours (B-Side Mix)

Masterboy

[Chorus]

Show me colors of your life
Beautiful and nice
Show me colors of your life
Heat or cold as ice
Show me colors of your life
Beautiful and nice
Show me colors of your life
The heat or cold as ice
Colors of me and the colors of you
Are the colors we see - oh yeah yeah yeah
Colors of me and colors of you
Are the colors we see - oh yeah yeah yeah I'm going out on a Saturday night
Just got paid and I feel alright
I drive my car down the street
Turn on the music and I feel the beat
I see this girl standing there
I step on the brake like I just don't care
Come on baby, let me take you out
Show me colors that the world's about Like a vision of love with you
It's a vision forever new
Like a vision of love we see
It's a vision of you and me [Chorus] I took your hand walked in the place
Your sexy eyes and your pretty face
The laser beam and the vary-light
Bring different colors to the night
I'm checking you out all I see is you
I believe I fall in love so true
All I want is to hold you tight
Show me colors of the night Like a vision of love wit you
It's a vision forever new
Like a vision of love we see
It's a vision of you and me [Chorus] Ladadi ladada di dam
