

The Fragile

Nine Inch Nails

She shines
In a world full of ugliness
She matters
When everything is meaninglessFragile, she doesn't see her beauty
She tries to get away
Sometimes it's just that nothing seems worth saving
I can't watch her slip awayI won't let you fall apart
I won't let you fall apart
I won't let you fall apart
I won't let you fall apartShe reads the minds of all the people
As they pass her by
Hoping someone can see
If I could fix myself I'd, but it's too late for meI won't let you fall apart
I won't let you fall apart
I won't let you fall apart
I won't let you fall apartWe'll find the perfect place to go
where we can run and hide
I'll build a wall and we can keep them
On the other side
But they keep waiting and picking
And picking and picking and picking
And picking and picking and pickingIt's something I have to do
(I won't let you fall apart)
I was there, too
(I won't let you fall apart)
Before everything else
(I won't let you fall apart)
I was like you
(I won't let you fall apart)
