

# 4.Q

## Blitz

Don't tell me what you want me to do  
I never wanted to be like you  
Bold and brave in a rut  
Can't take lying and you can't hear me shout4Q  
Sick and tired of your advice  
I told you once I won't tell you twice  
You're always right, you're never wrong  
Fuck off back to where you belong
