

# Lifetime In A Moment

## Stratovarius

„Omnia sol temperat, purus et subtilis.  
Novo mundo reserat faciem Aprilis."From the dark I watch you go away  
I will never see you againEvery passing day prolongs my pain  
I am slowly fading Into the voidVoice without a sound  
A sound that no one cares to hear  
A second drowned  
You live, your life just passed awayMoment in a lifetime  
Lifetime in a momentSeize the day don't let it slip away  
Cherish every moment, before it's goneVoice without a sound,  
A sound that no one cares to hear  
A second drowned  
You live, your life just passed awayMoment in a lifetime  
Lifetime in a moment
