Feels So Right

[Krystal Meyers](#)

I think I found the one, new life in my lungs
I'm guessing this is love
Pumping through my veins, killing all my pain
You're the remedy to my heartbreak
Wouldn't have it any other way
Hope this never dies
Nothing else feels so right
Every time you look at me I'm on a high
I need your love because it makes me feel alive
With the music playing it's so easy to believe that
Nothing else feels so right
Every time you look at me I'm on a high
I need your love because it makes me feel alive
With the music playing it's so easy to believe that
Nothing else feels so right
I feel a little strange, you go straight to my brain
Drivin' me oh so crazy, crazy, cr-cr-crazy
Between the sound and lights you've got me hypnotized
And if there never comes a sunrise, well that'd be just fine
This will never die
Nothing else feels so right
Every time you look at me I'm on a high
I need your love because it makes me feel alive
With the music playing it's so easy to believe that
Nothing else feels so right

Every time you look at me I'm on a high
I need your love because it makes me feel alive
With the music playing it's so easy to believe that
Nothing else feels so right
I'm hanging on every word you said
You're the song stuck in my head and I love it
I'm guessing this is, this is love
Every time you look at me I'm on a high
I need your love because it makes me feel alive
With the music playing it's so easy to believe that
Nothing else feels so right
Every time you look at me I'm on a high
I need your love because it makes me feel alive

With the music playing it's so easy to believe that
Nothing else feels so right
Every time you look at me I'm on a high
I need your love because it makes me feel alive
With the music playing it's so easy to believe that
Nothing else feels so right
Every time you look at me I'm on a high
I need your love because it makes me feel alive
With the music playing it's so easy to believe that
Nothing else feels so right
