Not Alone

Aram MP3

You're all alone, you're all alone,
No shoulder wants you to lean on,
You thought this world was too cold
And you've made up
A whole new worldDon't cry, don't cry little bird
Though you are scared and you're hurt
You're gonna wake up
It's only a dream
And why do dreams make people screamYou're not alone...(6x)What if it's all in one kiss
That turns all seeds into trees
The strongest wind into breeze
Enter all doors without keysWhat if it's all in one kiss
That turns all seeds into trees
The strongest wind into breeze
What if it's all in one kissYou're not alone...(2x)
