

Not Alone

Aram MP3

You're all alone, you're all alone,
No shoulder wants you to lean on,
You thought this world was too cold

And you've made up

A whole new worldDon't cry, don't cry little bird

Though you are scared and you're hurt

You're gonna wake up

It's only a dream

And why do dreams make people screamYou're not alone...(6x)What if it's all in one kiss

That turns all seeds into trees

The strongest wind into breeze

Enter all doors without keysWhat if it's all in one kiss

That turns all seeds into trees

The strongest wind into breeze

What if it's all in one kissYou're not alone...(2x)
