Deftones

No means no lie now find out what you get, you're no good
You'll sit around and throw a fuckin' fit
We are here onto you you're so far, you're fucking goneYou won't get to me 'till you cover me
I don't need this shit 'till you cover meNo means no lie now find out what you get, it's so good
You'll sit around and throw a fuckin' fit
We are here onto you give me more, you fucking liarYou won't get to me 'till you cover me
I don't need this shit 'till you cover meWe are here mother in your fear with you
We could be perfect in your world I know
But I will come I will come and I will come
GoI will come I will come and I will come
I will come I will come I will come I will comeDisappear
Disappear
Disappear
DisappearYou won't get to me till you cover me
I don't need this shit fuckin' liar
