

Fuck Reality

Soulfly

Brainwashed zombies
Hypnotized by TV
Subhuman animosity
Shroud of insecurity
Downtrodden exploitation
Striving for perfection
Fear of rejection
Powers of deception Fuck, fuck reality
I say fuck, fuck reality
I say fuck, fuck reality
I say fuck, fuck reality
I say...
Infest your weak minds
Subconscious landmines
Reverse into decline
Dysfunctional life
I am the epitome
Burden breaking the mold
Holy, the war
The living suffer Fuck, fuck reality
I say fuck, fuck reality
I say fuck, fuck reality
I say fuck, fuck reality
I say fuck... Infestation, confrontation, provocation - planet dies
Incineration, pacification, regression - mankind dies
Deception, regression, extinction - all of life
Subservience, dominance, negligence - man must die
Brutalized, sacrificed, sanctified - you will die
Holy war, execution, gas chamber - firing squad Slaves to be sold
Shackled to the bone
Broadcast noise pollution
Televised execution Fuck, fuck reality
I say fuck, fuck reality
I say fuck, fuck reality
I say fuck, fuck reality
I say fuck... Invented, never repented
For the sins that killed my skin
