

Long Cool Girl

Mark Knopfler

All I do is think of you
As I go around the world
All I do is think of you
Long, cool girl Long, cool girl
I like to say her name
Long, cool girl
With a showgirl frame You took a look at me
I took a look at you
Now I just can't see
What a man's supposed to do Long, cool girl
I like to say her name
Long, cool girl
With a showgirl frame Me and you we're 3 and 2
Something's gonna happen now, it has to
Me and you we're 3 and 2
Something's gonna happen now, it has to Pressure drop and weather change
All around the world
You got me at point blank range
Long, cool girl Long, cool girl
I like to say her name
Long, cool girl
With a showgirl frame All I do is think of you
As I go around the world
All I do is think of you
Long, cool girl
