

# Zen Brain

## Nada Surf

I'm going from strange to stranger  
Every year  
It's going from strange to stranger  
Every year I take it back, you're panicking  
I take it back, I just don't know  
I really thought I wanted to go  
But when you're close You look through me just like a ghost  
I like sleeping  
I'm only safe when I'm dreaming  
I need a new heart This one's hollow, always scheming  
You wait for summer  
And then you wait for winter  
But there's a total lack of splendor Zen brain, throw away your crushes  
All your childhood crutches away  
Super brain, never scared of nothing  
Violence or loving my way
