Zen Brain

Nada Surf

I'm going from strange to stranger Every year It's going from strange to stranger Every yearI take it back, you're panicking I take it back, I just don't know I really thought I wanted to go But when you're closeYou look through me just like a ghost I like sleeping I'm only safe when I'm dreaming I need a new heartThis one's hollow, always scheming You wait for summer And then you wait for winter But there's a total lack of splendorZen brain, throw away your crushes All your childhood crutches away Super brain, never scared of nothing Violence or loving my way
