If You Ever Feel Like Lovin' Me Again

Clay Walker

I remember when it all began You couldn't keep your body from my hands I remember nights we felt so close How we got so distant, I don't knowSo as you plan, your brand new life Keep this one thing in mindIf you ever feel, like lovin' me again The door's wide open, baby walk right in I'll be waitin', 'til the end of time Heart and mind, now just like back thenIf you ever feel like needin' someone Who will love you like I've always done Girl, I'll show you some things never end If you ever feel like lovin' me againPeople change and baby so do dreams They move along to where the grass is green So I won't hold you down to what we had Last thing I wanna do is make you sadBut if things don't fly your way Girl, it's never too lateIf you ever feel like lovin' me again The door's wide open baby walk right in I'll be waitin' 'til the end of time Heart and mind now just like back thenIf you ever feel like needin' someone Who will love you like I've always done Girl, I'll show you some things never end If you ever feel like lovin' me againIf you ever feel like needin' someone Who will love you like I've always done Girl, I'll show you some things never end
