Innocent Kids

H2O

Innocent kids, young, dumb, and naive
Told when to come and when to leave
Used and abused, like a bad habit does
Then accepted and neglected like and MTV buzzInnocent kids, make a past for yourself
Get out the handbook off the fucking shelves
So put on your best fake smiles and pull the knives out of their backs
This better than your fantasy has been done kids, way, way backSorry it took so long
For you to see
Made up your past now
What's the future gonna be?Innocent kids
