## DJ Dan

Never thought I'd fall in love  
Now I stand corrected  
Never thought I'd feel what I feel  
Never been so affected  
Now I know what I know  
But right now it seems so subjective  
Oh, oh  
You surprised me, hypnotized me  
Found my weakness, then you creped in, bam  
Took my heart then, bam  
Oh, you started to make my whole world just explode  
Bam, my life has changed  
Bam, can't concentrate  
Bam, I was okay  
Until we met that day then  
Bam, I am obsessed  
Bam, can't get nowhere  
Bam, ever since we met  
I think I know what love is, bam  
I felt so secure with these walls around me  
Boys would take me out  
But bring me back where they found me  
And there's no harm, no foul  
'Cause they never got a chance to know me, yeah  
You surprised me, hypnotized me  
Found my weakness, then you creped in, bam  
Took my heart then bam  
Oh, you started to make my whole world just explode  
Bam, my life has changed  
Bam, can't concentrate  
Bam, I was okay  
Until we met that day then  
Bam, I am obsessed  
Bam, can't get nowhere  
Bam, ever since we met  
I think I know what love is bam  
And if I had to walk a million miles  
To find your smile I would, you know I would, babe

And if you took a trip to Costa Rica  
And told me I need ya I would , I would, I would  
    Yeah, yeah, yeah  
    Bam, my life has changed  
    Bam, can't concentrate  
        Bam, I was okay  
    Until we met that day then  
        Bam , I am obsessed  
        Bam, can't get nowhere  
        Bam, ever since we met  
    I think I know what love is bam  
    You surprised me, hypnotized me  
    Found my weakness, then you creped in, bam  
        Took my heart then bam  
Oh, you started to make my whole world just explode
