

Skinnyman (Clean Album Version)

Static-X

My little girl
Where are you?
My fucked up world
Destroyed you
Day after day
Day after day
I get it now
I just go on without you
Twisted inside
Six miles high
I rehearse how to
Say goodbye to you Skinnyman
Turned into a monster
I'm a motherfucker Wrap it up tight
Emotions are distorted
It's no surprise
Nothing alive
All hope has been aborted
Day after day
Day after day
I get it now
I just go on without you
Twisted inside
Six miles high
I rehearse how to
Say goodbye to you Skinnyman
Turned into a monster
I'm a motherfucker
Inside I'm dead
All used up
God damn I miss her
